Stream & Lake Map of Pennsylvania

LOST STREAM MAP

The STREAM & LAKE MAP OF PENNSYLVANIA was completed in 1965 after a thirty-year effort by Howard Higbee, a former Penn State Professor. The map is known as the LOST STREAM MAP to some anglers.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

The few remaining dog-eared copies became a prized fisherman's possession.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered \$400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true after computers made it possible to reprint the map.

Why every angler and boater needs this map

Professor Higbee's® Stream & Lake Map of Pennsylvania is the first and only highly detailed map of its kind. The 3-foot-by-5-foot Pennsylvania map shows 45,000 miles of streams plus lakes.

"I have one of the original Higbee's Stream Map of Pennsylvania on my wall behind my desk. It's the best thing available as far as streams are concerned. I use it all the time for reference. I don't know of anything more extensive and it is the most accurate map out there as far as streams are concerned."

—Dave Wolf, PA Fish and Boat Commission
