Stream & Lake Map of **Pennsylvania**

LOST STREAM

The STREAM & LAKE MAP OF PENNSYLVANIA was

completed in 1965 after a thirty-year effort by Howard Higbee, a former Penn State Professor.

The map is known as the LOST STREAM MAP to some

anglers. Professor Highee suc-

ceeded in creating a map of the highest detail possible...a map that shows every stream and lake. He painstakingly

plotted by hand the location of 45,000 miles of streams onto a 3 by 5 foot map.

The map sold extremely well--until it was lost several

years later. Incredibly, the printer entrusted with the original drawing and printing plates

declared bankruptcy, then

years of work to a landfill. The few remaining dogeared copies became a prized

carelessly hauled Higbee's 30

fisherman's possession. Professor Higbee was offered \$400 for one of his last maps.

And state agencies were forced to keep their copies under lock and key. Experts told Professor

Higbee that reprints were impossible, because the maps were printed in non-photo-

graphic blue. Then, in 1991, at the age

of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map. Howard said, "I never thought I'd live to see this day." _____
